SHARD

...opens the gates to an entirely new realm of fantasy within the setting of

DÁRDÚNÄH WORLD of the FALSE DAWN
...invites you to enter the fantastic world of Dārđinah, the vast shard of a shattered realm, as presented in the colorful pages of the SHARD RPG! Many years in the making, this system allows players to choose from a wide variety of animal people who are the main cast of the many adventures this otherworldly setting offers. Skyships glide through shimmering clouds past majestic crystal peaks. Giant insects prowl alien jungles or lurk in the sparkling emerald seas. Warriors with blades of diamond and amber duel across crimson sands. And mystics chant in shadowy chambers as their spirits wander abroad.

SHARD is an exciting new game of heroic fantasy and adventure set in the realm of Dārđinah, World of the False Dawn, a unique fantasy campaign setting. You won’t find the standard fantasy fare in these pages; there are no elves, trolls, dwarves, knights, or even dragons. Indeed, the campaign world is quite a deviation from most European fantasy adventure games.

Dārđinah’s time period is not strictly medieval, the setting drawing its flavor from eastern rather than western cultures. Nor is it set on an alternate version of Earth. In fact, there are no humans on Dārđinah. An initial assortment of 90 animal templates inspired by the entire animal kingdom full of mammals, amphibians, reptiles, and birds are available for players to create an amazing assortment of characters, each with their own set of animal-based abilities, and that’s just the beginning! Creating characters for the game is a step-by-step process that guides the player through choices meant to place each character firmly within the fiction of the world. SHARD offers several different “power-levels” of play, from low to legendary, and presents hundreds of occupations from humble peasant to powerful lord.

What we hope you’ll find in the pages of the SHARD RPG is a gateway to grand, cinematic role-playing. Our simple, success-based d6 system is easy to learn, but the emphasis of the game is on the vibrant flow of story and fiction, whether experienced during a wild martial arts combat, or in the midst of a descriptive scene involving our unique system of ritual magic.

The tone of the setting can best be described as Eastern heroic fantasy with a strong cloak-and-dagger influence, all set on an alien world of chitinous beasts and mystical crystals. You will defend your lineage and honor against spies and slavers. You will face deadly assassins and duel with Honor Guards in the Spiral Arena. You will Dreamwalk with eerie sorcerers and battle alien demons. And over all of this...the divine Devah look down from the Edge of Heaven.
